

Prosper Alex

Frontend Developer and UI Designer

Passionate frontend developer based in Nigeria with a flair for crafting clean, responsive, and user-focused websites. Experienced with modern tools like SCSS, JavaScript, and Git. I thrive on turning ideas into interactive and accessible digital experiences.

Skills

- HTML5, CSS3, SCSS
- JavaScript (ES6+)
- React, Git, GitHub
- Responsive and Mobile-first Design
- UI Design Tools (Figma, Adobe XD)

Work Experience

Frontend Developer - CodeCraft Agency (2023 - Present)

- Built responsive websites for small businesses using HTML, SCSS, and JavaScript.
- Collaborated with designers to translate Figma designs into production-ready code.
- Improved page load speed by 40 percent through image optimization and lazy loading.

Frontend Intern - WebSpark Digital (2022 - 2023)

- Assisted in developing landing pages and internal dashboards using React.
- Gained hands-on experience with Git workflows and mobile-first development.

Projects

Portfolio Website

- Personal portfolio built with HTML, SCSS, and animations.

Task Manager App

- A to-do web app with local storage using vanilla JavaScript.

Weather App

- A weather dashboard using OpenWeatherMap API.
